Hey this is pretty good! It does still have some kinks like going through objects and I did get stuck at one point, it couldve used a little bit more play testing. But all in all the story and atmosphere seems really good so far. It has good pacing and good visuals. I would love to play in VR but I only have a vive :(Check out gameplay here. https://youtu.be/dDyDVQHOuiU. i played au2665u2665u2665u2665u2665u2665ton of horror VR games going into to this one i was like this will not scare me.I was dead wrong 10/10 for a great horror VR game !. i played au2665u2665u2665u2665u2665u2665ton of horror VR games going into to this one i was like this will not scare me.I was dead wrong 10/10 for a great horror VR game !. Played on PC and found the game to be an new and fresh take on the horror genre.. Have only played the game a little but I really like the atmosphere. The opening sequence is unique and the start of the game is eerie and intruiging. The one gripe I have is the difficulty navigating the menu screen.
